"No sir, you may say what you please," continued Colonel Shaw, "but it was an insult and it was intended as one, too. It was a slap in the face to every one of the 500,000 Union veterans of the civil war now living. We are growing feeble and our ranks are continually thinning but we still have memories for wrongs done us."

"Who was to blame for the lack of recognition of your organization?" asked a

reporter for The Journal. Well, several people. The one most at fault was a man named Roe-Major General Roe, you may have heard of him. It seems he was in charge of the military portion of the pageant and he didn't know any more about military affairs, or he pretended he didn't, than to open negotiations with the G. A. R. through two privates."

Who were the privates?" "Oh, one was Howard, who was a general In the war but he is just a common private in the G. A. R. The other private was Colonel H. H. Adams. These two men tre as much to blame as Roe because they knew that the G. A. R. is a military orpanization and as such all business affecting the order must be carried on through

"It was all planned beforehand and I will never believe that it was 'all a most anfortunate mistake' as they tried to make us believe after we showed dignified resentment at the treatment accorded us. They simply did not want the old soldiers in the parade. It was planned beforehand. Of course I have no positive proof of this but that is my firm opinion."

"Were you in New York during the ne as with General Howard and Colonel Adams?"

#### Colonel Shaw Was Ignored. "Why yes, I was there and I was utter

one for Major General Roe to see but it was part of the general scheme to You see, they knew my position in the matter. Two years ago at the dedication ceremonics of the Grant monument the old soldiers were assigned to the tail end of the procession, and when they arrived at the monument the president and most

of the guests of honor were gone. At that time the old soldiers were pushed and hauled about in a shameful way. It was a bitter cold day and many of them died from the exposure of that parade.

I was bound that such a shameful spectacle should not be repeated and I said so. The committee knew my position and knew that it was right. Before we were asked to tail-end the procession promised that I would have all the old soldiers past the reviewing stand in twenty minutes. I told them we did not wanty a supersede Admiral Dewey. We were willing to take a place behind him and the mayor and other of the ment important personages, but we did not propose to occupy a place away down the line.

Tell me why the old soldiers were not as much interested in according a fitting reception to the mation's hero as anyone? Admiral Lewey was a member of the of the guests of honor were gone. At that

Admiral Lewey was a member of the Grand Army before he destroyed the Spanish fleet. He is our commide and we had a right to march back of his carriage. He doesn't belong to the city of New York He is not a member of the New York fire department."

"How about Coionel Roosevelt's part in Roosevelt Stood by the G. A. R. "Oh, the governor was a firm friend to the G. A. R., and he tried to arrange matters properly. You see Roe is his major general, and ordinarily Roosevelt would have been able to assign us to a post of honor, but the authorities of New York city told Colonel Roosevelt that the parade was a civic function and he had nothing to do with it. Roosevelt was helpless, and he wrote a letter saying how sorry he was that the matter was neyond his control. Mayor Van Wyck is an elegant fellow, and he gave me his personal assurance that he was not in a position to alter the arrangements.

"In every other patriotic demonstration in this country the old soldiers have always been given a place of honor. Take it in the reception of the Tenth Pennsylvanta regiment, just a little while ago. The G A. R. members were given a place at the head of the procession. The same infing occurred in Hilnois.

"I am sure the committee is sorry now the G. A. R., and he tried to arrange

"They are a splendid lot," the admiral said, speaking of his men, "the very pick, the finest in our navy, and that means the best in the world. The scarlet fever archbishop came on board one day while I had a battalion at drill, the very same battalion that will parade in New York. The archbishop went on the bridge and watched them closely. I knew he was admiring them, and I said to him:

" Well, what do you think of our American sallors?"

NEW YORK, Sept. 25.-Admiral George Dewey arrived off New York at dawn and the Olympia is now anchored in American waters in the light of Sandy Hook,

The first shout of welcome was from the miles south of the Hook lightship. It happened to be Pilot John Peterson's turn, and, at 5:50 a, m., he was nut on board the Olympia and brought her around the Hook and into the lower bay.

had sighted the Olympia in the first light of the morning. The shore batteries of from breakfast, let loose seventeen guns. The flagship replied with twenty-one, and cup challenger Shamrock is moored.

The admiral was in his own country again, after twenty-three months' absence. He had returned "great with the arduous greatness of things done," and he scarcely seemed to realize it.

Th governors of many states are coming to see me, and the troops from Fiorida, Georgia and other faraway states are on their way to take part in receiving me."

The admiral stroked the head of a tawney-haired dog, the Chow dog of a Chinese breed that appears in the illustrated interviews with the admiral.

"Bob, here," he said, "is not well. He rearns to be ashore. He is sick to get a little grass and to scamper around. I feel a good deal that way myself. I am mighty giad to get home. It is not good for a beard for twenty-three months."

#### The Admiral Is Well.

The admiral said he felt tired, but he did not look so. His complexion is a clear bronze, his hazel eyes bright, his bearing brisk and rather jaunty. Some deep lines are under his eyes and around his mouth, but his voice is singularly clear and pleasant. The admiral's whole presence is of a man in his fullest powers. His manner is gentle and kind, but he is exceedingly wary and did not permit himself to wander off Sir Thomas and his friends left the Olymby him. into politics or to express those positive views he no doubt helds about the Philippines and American affairs there. His atention was brought to interviews in which he is described as going rather fully into the character of the Filipinos and their fitness for self-government.

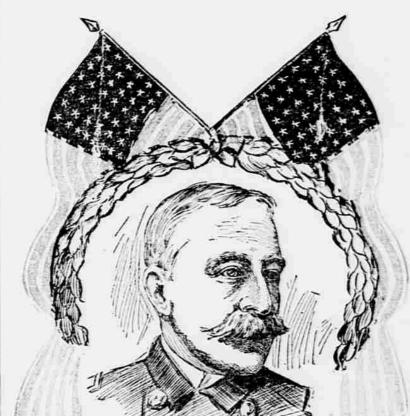

"I cannot stand for any interview givng my opinions on political subjects and ascribed to me on those subjects."

#### Why He Was Ahead of Time.

Alluding to his arrival two days ahend of the time he was expected, Admiral Dewey said: "I am sorry that I am ahead of the schedule. The Olympia has been steaming at the uniform rate of ten knots an hour since we left Gibraltar. Several days ago we knew that we would arrive before Thursday unless we moderated our speed or went somewhere out of our course."
